THE NEL PODCAST

NO 1 POD, APPLE PODCASTS - 2019

In 2018, after much success djing and hosting events, NEL started his podcast, THE NEL PODCAST (fka The MC Nel Podcast), to highlight his hosting prowess and have engaging conversations on society and culture. The show garnered a lot of popularity within a short period and eventually became the No. 1 Podcast on Apple Podcasts in 2019.

In its 5th season, the show has subsequently repurposed its focus and NEL seeks to hold engaging conversations with creatives to highlight their stories and journeys.
