ABOUT

NEL is a Berlin-based DJ with Ghanaian roots, bringing together the depth of house music with the energy and rhythm of African electronic sounds.

Moving across House, Afro House, Afro Tech, Tech House, Amapiano and African Dance Music, his sets are built around groove, progression and connection. Rather than being defined by a single sound, NEL approaches each set as a journey, reading the room, creating space, introducing new music and allowing the music to evolve naturally.

Shaped by experiences across Accra and Europe, his sound feels both rooted and open: rhythmic, warm and designed for movement.

THE SOUND

HOUSE / AFRO HOUSE / AFRO TECH /
TECH HOUSE / AMAPIANO /
AFRICAN DANCE MUSIC

NEL's approach is grounded in rhythm.

Deep grooves, rolling percussion and warm melodies sit alongside harder club energy and African electronic influences, giving him the freedom to move between sounds without losing the thread of the set.

His selections favour progression over predictability – building atmospheres patiently, responding to the dancefloor and finding the moments where different musical worlds naturally meet.

GROOVE FIRST. ALWAYS.

PROJECTS

01

DUST && GROOVE

A deep-house-focused mix series built around warmth, space and intentional selection. Dust && Groove explores the deeper side of NEL's musical identity through patient, immersive sessions where storytelling takes priority over trends.

02

GROOVE LIFESTYLE

A platform and mix series exploring African electronic music and the sounds surrounding it. Groove Lifestyle creates space for movement, discovery and collaboration while connecting sounds and artists across scenes.

03

GROOVE SUNDAYS

A community-led event series built around music, movement and connection. The concept is now evolving into Dance Hour Social, expanding its focus on shared dancefloor experiences and community.
